Radiating an infectious enthusiasm for elevating human consciousness, she's on a spirited mission: to amplify the vibrancy of humanity by nurturing healers into flourishing catalysts of change.

Blending the art and science of energy work, Emma introduces the world to the '5 dimension-method'—a groundbreaking approach that diverges from conventional paradigms. The potency of her unique modalities has resonated from coast to coast in Australia, echoed in international arenas, and fortified by her globally accepted programs. Through captivating talks and workshops, Emma's voice rings clear, championing peace, self-healing, kindness, and heralding her pioneering programs: The Family Freedom Protocol, Delete Reset, Timeline Reset and Relationship Sovereignty.

A maestro of metamorphosis, Emma delves deep to alleviate the shadowy specters of depression, anxiety, PTSD, and self-limiting beliefs. Harnessing the synergetic might of Timeline Reset, Hypnotherapy, Energy Work, and Life Coaching, she pinpoints the heart of one's challenges, charting a course for profound self-renewal.

Emma's passion for transformation is deeply personal. Diagnosed with MS in 2014, she confronted a maelstrom of fatigue, fear, and despair. Faced with bleak forecasts, her indomitable spirit chose resilience. Embarking on a profound journey of discovery, Emma crystallised potent self-healing techniques, now shared generously with both clients and therapists.

With a resounding call to the global community, Emma emphasizes the transformative power of intertwining the conscious and unconscious realms. By weaving hypnotherapy, mindset shifts, energy work, and holistic lifestyle choices, she believes in kindling a life abundant in health and joy. After all, healing, Emma professes, is as much about the mind's architecture as it is about its essence.

Today, Emma's beacon burns brighter than ever. Empowering therapists with unparalleled tools, she envisions a world where healing is swift, profound, and imbued with grace. Join Emma on this journey; let's co-create a world humming with harmony and boundless potential.

Founder of The Wellness Chambers

Shani's passion for energy healing began at the age of 10, when she participated in her first Reiki workshop. Tuning in, feeling, and being able to flow energy at a very young age, has definitely shaped her life for the better! As a troubled child, her parents struggled in finding her effective help. After years of seeing many different professionals in the mental health system, and with her conditions only getting worse, her parents took her to see a Kinesiologist. That treatment rapidly and dramatically not only changed, but saved her life, in only 2 sessions! She was 14 years old, and the difference kinesiology made was nothing short of a much-needed miracle. And so, began her journey and passion to be able to facilitate the same life-saving treatments to others.

She has spent over 20 years gathering the most effective tools she can find, to help overcome her own depression, addictions, suicidal tendencies, health problems and personal struggles.

Since learning to deeply heal herself, she has opened her doors to practice professionally in Jan 2014. Since then, Shani has easily helped facilitate massive changes and transformations in hundreds of clients, with a broad range of issues, treating them with an even broader range of tools. Shani is now using her extensive knowledge in many different healing traditions to create unique and original processes, and teaching practitioners to help get their clients results even faster.

Shani is a pioneer in her field, incorporating energy work into easy-to-understand healing scripts for therapists to easily replicate
